

# Change Order Payments

## Change Order Payments

The Change Order Payment module complements the Change Order module, making it fast and easy to create and reconcile payments.

### What?

#### What is the Change Order Payment module?

- A web-based, change order payment module that makes it easy to create, track, manage and analyze all change order payment activity
- Links change order payments to corresponding change orders
- Tracks change order payments from creation through bank verification to ensure visibility throughout the chain of custody
- Analyzes change order payments, using intelligent reports on real-time activity, including unmatched change orders, payment exceptions and much more

Create Payment	Delivery Date	Placed	\$ Ordered	Confirmation
Create Payment	2/21/2016	2/18/2016	\$1,920.00	9105011713

### How?

#### How does it work?

- Headquarters establishes rules: user access, payment types and other key requirements
- Users create change order payments based on available, unmatched change orders
- System communicates change order payment information to bank partners
- Payments transported to bank partners
- Banks receive, credit and verify payments
- DTS Connex captures and records all steps in the chain of custody

### Why?

#### Why DTS Connex?

- Standardizes and streamlines the change order payment process at all locations, regardless of bank(s) and armored carrier(s) utilized
- Reduces employee errors and adjustments by simplifying the change order payment process
- Leverages unique transaction numbers to simplify reconciliation
- Improves change order to change order payment matching percentages
- Integrates seamlessly with other DTS Connex modules

**Create Payment for Change Order (\$1,920.00)**
